

Product Update

Dear Customer,

In our continued efforts to maintain a sustainable and viable product portfolio, Apotex has made the decision to divest three products (nine SKUs) to AA Pharma Inc. As of February 8, 2019 all orders for these products should be directed to AA Pharma who will supply these products through all major wholesalers. These products will be distributed under the Apotex label until initial inventory is depleted. At which time, product will be updated with their own label.

This decision will help focus our efforts to support our growing product portfolio, launching more high value, high volume generic products and enabling more cost savings to the Healthcare System. In the last 12 months Apotex has introduced 21 new products, adding to our broad portfolio of products within the Canadian pharmaceutical market.

Please find attached the list of products that have been acquired by AA Pharma Inc. Should you have any questions about these products, please contact your Apotex representative or AA Pharma directly at 1-877-212-3513.

We will make every effort to have this transition as seamless as possible. As always, we thank you for your support and we appreciate being your partner.

Thank you,

Apotex Marketing
