

# Product Update

Dear Customer,

In our continued efforts to maintain a sustainable and viable product portfolio, Apotex has made the decision to divest two products (three SKUs) to AA Pharma Inc. As of March 22, 2019 all orders for these products should be directed to AA Pharma who will supply these products through all major wholesalers. These products will be distributed under the Apotex label until initial inventory is depleted. At which time, product will be updated with their own label.

This decision will help focus our efforts to support our growing product portfolio, launching more high value, high volume generic products and enabling more cost savings to the Healthcare System. In the last 12 months Apotex has introduced 22 new products, adding to our broad portfolio of products within the Canadian pharmaceutical market.

Please find the product information below for the product that has been acquired by AA Pharma Inc. Should you have any questions about this product, please contact your Apotex representative or AA Pharma directly at 1-877-212-3513.

We will make every effort to have this transition as seamless as possible. As always, we thank you for your support and we appreciate being your partner.

---

**Product Update: Apo products divested to AA Pharma Inc.**

Product	Pack Size	DIN	UPC 771313-	Apo-Code
