Sandoz Posaconazole (posaconazole) delayed-release tablets are indicated for:

- Prophylaxis of Aspergillus and Candida infections in patients who are at high risk of developing these infections, such as patients with prolonged neutropenia or hematopoietic stem cell transplant (HSCT) recipients.
- Treatment of invasive aspergillosis in patients with disease that is refractory to amphotericin B or itraconazole, or in patients who are intolerant of these medicinal products. Refractoriness is defined as progression of infection or failure to improve after a minimum of 7 days of prior therapeutic doses of effective antifungal therapy.

Please consult product monograph available at sandoz.ca/en/Generics or obtain a copy by calling Sandoz Medical Information at 1-800-343-8839 ext. 4636.
